

Hydro-Cure® NM-60 Mixed Bed Deionization Cartridges

Mixed Bed D.I. Cartridges are ideal for final polishing of low Total Dissolved water such as R.O. or distilled water. Utilizing Ionac's NM-60 Mixed Bed D.I. Resin along with our patented Hydro-Cure® design, this cartridge will produce over 1 Meg oHM or better quality. Total capacity is over 2500 ppm at a flow rates of up to 0.25 gpm.

Also available is a NM-65 Mixed Bed Cartridge which has a color indicator that

changes the color of the resin from brown to blue as it becomes exhausted. Our mixed bed D.I. cartridges are suitable for all of your high purity needs.

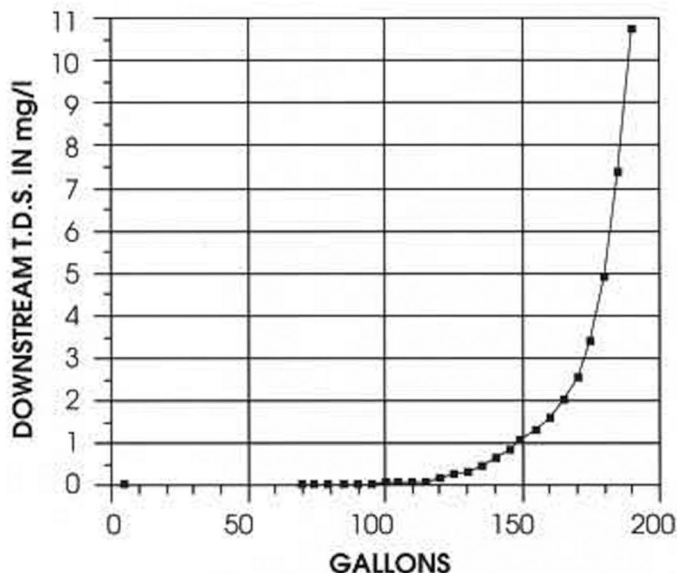

Please consult factory for further specifications and your custom labelling requirements.

SPECIFICATIONS:

Order Number: S7010-07
Style: Mixed bed deionization resin
Operating Temp: 32°F-120°F
0°C-48°C
Micron Rating: N/A
Internal Volume: 42 in.³
Rec. Flow Rate: 0.2 GPM
Packaging: 12/carton
Carton Weight: 17 lbs.
Cubic Feet: 1.10 ft.³
